EXPERTS WITH EXPERIENCE

LUBECA – CAN CLOSING MACHINES "MADE IN GERMANY"

The company LUBECA Verschleißmaschinen GmbH is your competent contact for the development and production of new semi-automatic and fully automatic can closing machines – especially adapted to your requirements.

LUBECA has established itself as a regular supplier for stainless steel can closing machines to national as well as international customers.

SERVICES FROM LUBECA

We provide the best-possible service with regard to maintenance and repair of your LUBECA machines no matter how old they are.

OVERHAULING OF LUBECA MACHINES

Our company has an optimally equipped workshop available.

In case of repairs or overhauling, we are able to take original spare parts directly from our well-stocked parts warehouse with 4,000 items and assemble them.

And after two to three decades under production conditions, the machines can be generally revised and used for a second production cycle. After all, it is quality "made in Germany".

GUARANTEED SUPPLY OF SPARE PARTS

All our delivered spare parts as well as complete format sets are exclusively based on original drawings. Depending on the customer preference we also offer on-site assembly of spare parts. We are offering spare parts and services for the worldwide known LUBECA machines of all ages.

EXPERT ADVICE AND TRAINING

We have the same goals as you: Increased efficiency and improvement of product quality. For this purpose, we are offering the following services to our customers:

- Competent, independent expert advice in the field of can closing machines
- Training of new employees with regard to maintenance and operation
- Training on double seam technology and closing machines

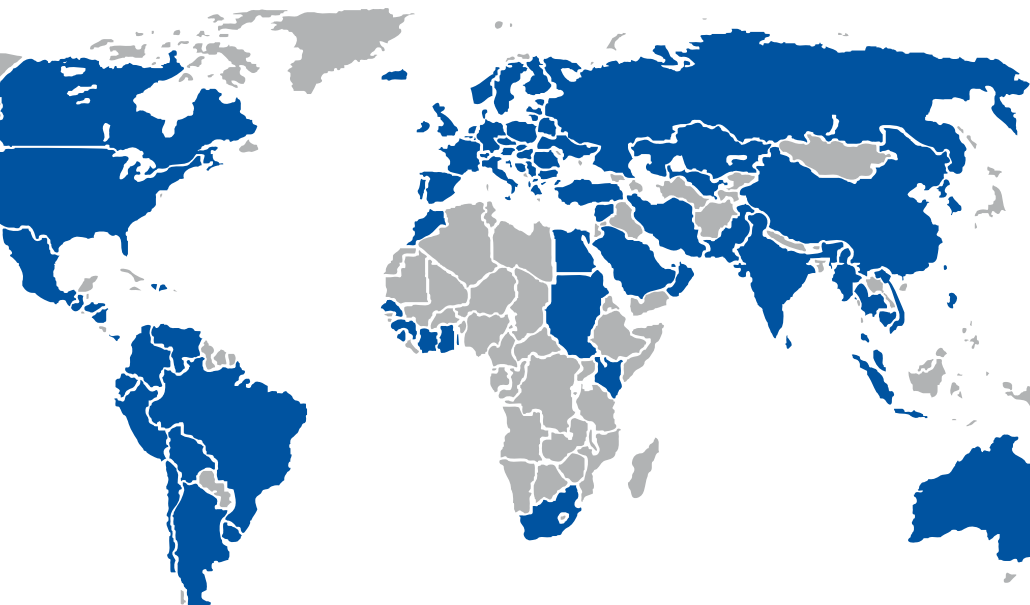

We adapt our machines to your individual production processes and achieve maximum flexibility for you.

OUR SERVICES AT A GLANCE

- Production of new semi-automatic and fully automatic can closing machines for wet and dry products
- Revision and overhauling of LUBECA machines
- Spare part service
- Delivery of manufactured spare parts as well as complete format sets according to original drawings
